STANDARD REVIEW AND DISTRIBUTION STATEMENTS

I believe the security classification of this document to be *(select one)*:

Unclassified

Unclassified but Controlled

(CUI) Classified

(If Classified, STOP. Consult your sponsored research POC for their security classification guide and review. If document is not associated with sponsored research, consult the NPS Security Manager at securitymgr@nps.edu.)

~~~~~

A document's distribution statement clearly defines the document's intended audience and the reasons, if any, for restricting distribution outside NPS. This form provides a record of the author's selection of the appropriate DoD distribution statement for the unclassified document listed below. It also provides a record of review and approval by others, such as the NPS Export Control Officer, when warranted.

Guidelines for selecting DoD distribution statements (DODI 5230.24, 8/23/12) can be found at:

<http://www.dtic.mil/dtic/submit/guidance/distribstatement.html>. For material to be published by NPS, the selected distribution statement should be placed, at minimum, on the front cover and title page of the material. Note: The statement typically does not show on documents published by organizations other than NPS, although a distribution statement should be included on the package when sending documents to publishers for review.

### **DISTRIBUTION STATEMENTS**

The responsible author has determined that the appropriate statement is *(select one)*:

A (Unlimited distribution)

B,

C,

D,

E,

F

**For statements B through F, include the following items on the material to be released: reason for distribution selection (from [DTIC instructions](#)), date selection applied, and the following text for the Controlling DoD Office:**

"Other requests for this document must be referred to President, Naval Postgraduate School, Monterey, CA 93943-5000."

Please acknowledge that you have understood each of the following three provisions by checking each box:

For documents **other than final versions published by other presses**, the responsible author agrees to place the selected DoD distribution statement in readily viewable places on the document, including front cover, title page, and, if applicable, SF 298. (SF 298 is required for documents/materials distributed to the NPS library and DTIC; See [http://www.dtic.mil/dtic/pdf/submit/SF0298\\_fillable.pdf](http://www.dtic.mil/dtic/pdf/submit/SF0298_fillable.pdf).)

For documents that includes export-controlled information, the responsible author agrees to additionally display the following Export Control Warning on the document (DODI 5230.24, 8/23/12, pp.19-20):

WARNING – This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, U.S.C., Sec 2751, et seq.) or the Export Administration Act of 1979 (Title 50, U.S.C., App. 2401 et seq.), as amended. Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25.

For documents for which a disclaimer is appropriate, the responsible author agrees to place the following statement on the document:

“The views expressed in this document are those of the author and do not reflect the official policy or position of the Department of Defense or the U.S. Government.”

### ADDITIONAL REVIEW

The responsible author determines that further review (*select one*)

is not necessary.

is or may be necessary.

If further review is deemed to be appropriate, the responsible author will complete the fields below after consulting the relevant office(s). e.g., NPS Security Manager, Export Control Officer, Contracting, Legal Counsel, IRB, PAO, Technology Transfer (see [NPS's public release site](#) for POCs), sponsor and/or sponsor's PAO, responsible USG agency, and/or individuals and companies if proprietary information is included. If more than two additional reviews are sought, create additional review blocks using the text below.
